

**ENG**

**BIOCIDES MANUFACTURING COMPANY**

# Insecticides manufacturing

FERBI's insecticides production unit is modern, up-to-date and complies with all legal standards applying to these products. Most production processes are fully automated and this allows FERBI to be highly competitive both on the domestic and on the international markets.

FERBI offers top flexibility in meeting with Customers' requirements when it comes to pack types and sizes.

Continuous production checks assure production uniformity both on large and on small production batches.

FERBI can formulate the following product types:

- EC - Emulsifiable Concentrates
- SL - Concentrated Soluble Liquids
- EW - Emulsions in Water
- SC - Suspension Concentrates
- SE - Suspoemulsions
- RTU - Ready-To-Use
- DP - Dustable Powders
- TABLETS
- MICROGRANULES

# Rodenticides manufacturing

FERBI's rodenticides production unit is fully equipped, highly competitive and flexible.

FERBI in fact can manufacture even small batches while maintaining quality unchanged and lead time short.

Automated lines and efficient production planning allow FERBI to offer extremely competitive prices both on the domestic and on the international markets.

Raw materials for rodenticides are carefully selected, as they are the essential element to guarantee product palatability.

FERBI can formulate the following product types:

- Pasta baits
- Wax blocks
- Pellets
- Wheat - Cereals

Pasta baits production is the pride and joy of FERBI; the production process and the selection of raw materials are such that FERBI's pasta baits are considered among the most qualitative available on the market.

Rodenticides can be customised for colour, weight and pack type/size, with a full selection of packages for both professional and amateur use.

# Powders Manufacturing

The powders production unit was installed in 2008 and is equipped to pack a wide range of pack types.

Jars, bags and sacks of all sizes are automatically filled.

FERBI's just-in-time production planning secures fast deliveries combined with top flexibility.

Quality is assured through strict random checks all along the production process in order to obtain maximum product uniformity.

FERBI carefully studies and assesses all formulations through specific tests on raw materials and finished products, conducted in the in-house laboratory.

FERBI can formulate the following product types:

- DP - dustable powders
- TABLETS
- MICROGRANULES

# Formulations

## Insecticides, Repellents and Attractants

**EC** Emulsifiable Concentrates

**ME** Concentrated Micro-emulsions

**EW** Emulsions in Water

**SC** Suspension Concentrates

**SE** Suspoemulsions

**RTU** Ready-To-Use

**SL** Concentrated Soluble Liquid

**TB** Tablets

**MG** Microgranules

**GR** Granules

**DP** Dustable Powders

**GP** Gel Pearls

# Formulations

## Rodenticide baits

Pasta bait

Wax block bait

Pellet bait

Wheat bait

Cereal bait

# Private Label Manufacturing

---

FERBI's corporate philosophy is that of providing business partners a comprehensive service combined with top professionalism. The priority of FERBI is that of offering complete, versatile and customised products in full compliance with partners' requirements and market demand.

Thanks to the comprehensive private label service, business partners who decide to rely on FERBI can count on full support to design and create customised labels and packages and on the absolute confidentiality with which FERBI will handle confidential information.

FERBI's flexibility also applies to private label productions; in fact, FERBI can manufacture private label products in small batches, in a fast, efficient way.

FERBI can formulate insecticides and rodenticides according to Customer's specifications, can pack the products in a variety of pack types and sizes and can adapt palletisation to Customer's requirements with the aim of maximising loads and cutting transportation costs.

# Quality and Control

FERBI operates in compliance with an integrated quality management system based on UNI EN ISO 9001:2015 and with environmental certification UNI EN ISO 14001:2015, as an extra guarantee of professionalism and commitment towards customers and the environment.

## Management procedures include:

- Document Management
- Human Resources Management
- Marking and Maintenance of Product Equipment
- Sales Management
- Production Management and Batch Traceability
- Purchasing Management and Suppliers Evaluation
- Complaints Management and Customers' Satisfaction
- Internal Audits
- Non-conformities Management
- Preventive and Corrective Actions

Product quality control is performed through continuous checks during production processes and through analyses conducted in the FERBI in-house laboratory.
