

FERPELLET BRODI 25

For general public, professional and trained professional users

Characteristics:

FERPELLET BRODI 25 is a biocide product PT14.

FERPELLET BRODI 25 is a rodenticide bait formulation, containing an anticoagulant active ingredient, named Brodifacoum. The formulation consists of a very palatable pellet for the target animals. The product does not alert and does not generate suspicions to the other members of the rodent population. FERPELLET BRODI 25 can be used indoor and around industrial buildings (including warehouses, depots, ship holds), rural, civil, homes, basements, garages, storerooms, gardens and outdoor areas of relevance.

BROWN RAT

USAGE ADDRESSES

INDUSTRY

PRIVATE

INTERNAL

EXTERNAL

Composition:

100 grams of product contain:

Brodifacoum (CAS N° 56073-10-0) 0.0025 g

Denatonium Benzoate (CAS N° 3734-33-6) 0.001 g

Co-formulant to 100 g

Formulation:

The pellet bait allows, as in the food industry, to be able to mix food and nutrients, even in powder form, and create an attractive bait.

Ferbi has put all its experience as a rodenticide bait formulator in order to obtain a bait with a good palatability by selecting food-grade ingredients.

The bait contains Denatonium benzoate, a bitter substance, to prevent accidental ingestion by children.

Usage rates:

Indoor, outdoor and around buildings.

Against House mouse (*Mus musculus*), dispose 20 - 40 g of bait every 10 - 15 m.

Against Brown rat (*Rattus norvegicus*), dispose 100 - 200 g of bait every 5 - 10 m.

Do not apply this product directly in the burrows.

Hazard statements:

H373 May cause damage to organs (blood) through prolonged or repeated exposure.
